

On February 12th , 2021, an opening online press conference was held under the project "Establishment of the Youth International Center Burgas", under the program "Local Development, Poverty Reduction and Enhanced Inclusion of Vulnerable Groups", funded by the Financial Mechanism of the European Economic Area 2014 – 2021. The management team presented in detail the activities set out in the project proposal, as well as the newly formed nonformal group of goodCreators by broadcasting a video specially prepared for the meeting, with which the young leaders expressed their expectations and interest to join the project. The construction of the center is expected to be completed by March 2022, and mainly young people will work there. The youth centre team will be selected and trained before the opening of the building and they will "introduce" their peers the new "place" where they will be able to freely participate in various activities, will be able to express themselves and express their needs. The Center will provide conditions for realization of international youth exchanges, informal education, regional visits, clubs, training, startup spaces and services will be available to all young people.
